

THADIGOPPULA HARSHA VARDHINI

Data Analyst | Business Analyst | Analytics Consultant

thadigoppula_hv@bt.iitr.ac.in | +91 7075453959 | [LinkedIn](#) | [Portfolio](#) | IIT Roorkee '26

PROFESSIONAL SUMMARY

Data and Business Analyst with 2 analytics internships, 3 end-to-end analytics projects, and ongoing freelance work in AI model evaluation and prompt engineering. Works mainly in Python, SQL, Excel, Power BI, and Tableau to clean up messy datasets and turn them into insights that actually move pricing, retention, and go-to-market decisions. Comfortable with exploratory data analysis, statistical analysis, A/B testing, predictive modeling, and building business intelligence (BI) dashboards. Also brings a consulting toolkit, issue trees, RICE prioritization, requirements gathering, and stakeholder management, built through project work in Agile/Scrum settings. IIT Roorkee graduate (B.Tech, top 0.5% JEE-Advanced rank) with a solid grounding in statistics, machine learning, and database systems.

CORE SKILLS

Programming & Data: Python (Pandas, NumPy, Matplotlib, Seaborn, Scikit-learn), SQL, DAX, Advanced Excel (Pivot Tables, VLOOKUP, Macros)

Data Analytics: Exploratory Data Analysis (EDA), Statistical Analysis, A/B Testing, Predictive Modelling, Data Cleaning & Preprocessing, Root Cause Analysis, Forecasting

Data Visualization & BI: Power BI, Tableau, Business Intelligence (BI) Reporting, Dashboard Development, KPI Tracking & Reporting

Machine Learning: Logistic Regression, Decision Trees, Feature Engineering, Regression Analysis, Churn Modelling

Business & Consulting: Requirements Gathering, Stakeholder Management, Issue Trees, RICE Prioritization, Funnel Analysis, Process Improvement, Market & Competitive Research

Tools & Ways of Working: Jupyter Notebook, VS Code, Git, Jira, Agile/Scrum, Kaggle

PROFESSIONAL EXPERIENCE

Freelance Prompt Engineer (RLHF & Model Evaluation)

Jul 2026 – Present

Handshake AI · Remote

- Design and evaluate prompts and response pairs for Reinforcement Learning from Human Feedback (RLHF), ranking model outputs against quality, accuracy, and safety guidelines to improve model alignment.
- Apply structured rubrics to assess reasoning quality and factual correctness across tasks, contributing consistent, high-agreement judgments to training pipelines.

Freelance Prompt Engineer (Mathematics)

Sep 2025 – Apr 2026

Outlier · Remote

- Wrote and evaluated math-domain prompts and step-by-step model responses, improving reasoning accuracy and solution clarity for LLM training datasets.
- Reviewed model outputs against correctness and rubric guidelines, flagging edge cases and inconsistencies to improve dataset quality.

Data Analyst Intern

Jun 2025 – Aug 2025

Technocolabs Softwares Inc.

- Increased insight delivery speed by 35% across 3 client projects by cleaning and aggregating 50,000+ rows of structured sales data using Python and SQL, reducing data errors by 20%.
- Identified 4 loss-making product segments contributing to 18% revenue leakage through deep EDA on discount, profit, and customer behaviour data, visualised in Power BI dashboards.
- Designed interactive dashboards segmented by region, category, and time period, enabling A/B analysis of discount strategies and directly informing 3 pricing decisions.
- Translated statistical analysis findings into business-ready reports adopted by non-technical stakeholders, reducing follow-up clarification requests by 30%.

Business Analyst Intern

Feb 2025 – May 2025

TEMS Tech Solutions

- Improved lead prioritization accuracy by 30% (per sales team conversion feedback) by building a client and competitor tracker using Python and structured data pipelines.
- Reduced competitor research turnaround by 40% by automating market trend analysis into a dynamic Power BI dashboard for pricing and positioning decisions, delivered within Agile sprints.
- Surfaced 3 high-potential market segments through EDA on 10,000+ prospect records, presenting findings to senior leadership in weekly stakeholder reviews.

- Ran requirements gathering across 4 cross-functional teams and turned business needs into structured analytical reports aligned with Scrum sprints, cutting revision cycles by 25%.

KEY PROJECTS

Customer Churn & Revenue Leakage Analysis (Telecom)
Kaggle Dataset (Simulated Business Case)

Dec 2025 – Jan 2026

- Quantified \$2.3M+ in simulated annual revenue leakage by analysing churn patterns across 7,000+ telecom customers; identified top 3 drivers (contract type, tenure <12 months, high CLTV) via logistic regression.
- Built a retention scoring model achieving 82% precision, enabling segment-level intervention strategies projected to reduce churn by 18%.

Tools: Python, SQL, Scikit-learn, EDA, Churn Modelling

Sales & Profit Analysis in Retail
Kaggle Dataset (Simulated Business Case)

Oct 2025 – Nov 2025

- Uncovered a 22% profit drag from over-discounting in the Furniture category by analysing 9,994 transactions across 4 regions; identified West as the top revenue driver (+34% vs. average).
- Built automated monthly trend visualisations revealing Q4 seasonality spikes, informing inventory planning for 3 product sub-categories.

Tools: Python, Pandas, Matplotlib, Power BI, Statistical Analysis

Boosting Revenue in Urban Food Courts
Self-Initiated · Consulting Case Study

Jun 2025

- Diagnosed a <12% visitor-to-customer conversion rate in Tier-2 city food courts using funnel analysis, issue trees, and 5 customer personas.
- Prioritised 5 low-cost interventions via the RICE framework, projecting a 25% conversion uplift within a 60-day rollout, validated against secondary market research.

Tools: Funnel Analysis, RICE Framework, Business Strategy, User Personas

EDUCATION

B.Tech, Biosciences & Bioengineering
Indian Institute of Technology, Roorkee

2022 – 2026

Relevant Coursework: Probability & Statistics, Data Structures, Machine Learning, Database Management | CGPA: 6.69

Intermediate (Class XII)
Sri Chaitanya Junior Kalasala, Telangana (SSC) | 98.60%

2020 – 2022

Matriculate (Class X)
Paramita Heritage School, Telangana (SSC) | CGPA: 10.0

2020

LEADERSHIP & POSITIONS OF RESPONSIBILITY

Senior Executive (PR), Cognizance IIT Roorkee (Tech Fest)
IIT Roorkee

May 2023 – Apr 2024

- Created a new revenue stream via the 'One Pass All Workshops' model, onboarding 20+ companies and driving 1,000+ paid participations in Cognizance '24.
- Achieved 300% growth in workshop participation for the Free Online Workshop Series in Cognizance '23 by redesigning outreach and registration flow.

Associate Coordinator, Placement & Internship Cell
IIT Roorkee

Dec 2022 – Mar 2024

- Managed end-to-end company relations for 50+ recruiters, coordinating interview schedules and communications, contributing to a 95% placement rate for the 2023 graduating class.

AWARDS & ACHIEVEMENTS

- JEE-Advanced 2022: Rank 7,379 among 1.5 million candidates (top 0.5% nationally).
- Reliance Foundation Scholarship, a merit-based national award, May 2023.
- NCC 'C' Certificate with Grade A distinction in the leadership and discipline track, IIT Roorkee.
